I have been in touch with a member of Keepers of Baker Island (KOBI). He had a meeting planned with the National Park Service and assured me that he would advocate on our behalf to gain access to the lighthouse tower. Update to follow. We will have access to a couple of the other buildings on the island.

For those members with mobility issues and those who choose not to take the tour on Baker Island, you have the option of staying aboard the M/V *Miss Samantha*, which will be anchored close to the shore and will stay there until the remainder of our group returns from the island. During that time, you will have the opportunity to watch a pre-recorded video of the tour led by a National Park Service naturalist. I will have a link to that video which you will be able to download and view on an iPad or smart phone, etc., while relaxing on the boat.
